

The **ESTEBAN CIRCUIT TRAINING SYSTEM** is one of Master Kirby's signature products.

The course includes Hand Gun exposure and firing of live ammunition in a professional supervised setting. Further, the program deals with self-defense concepts in a one-on-one setting with Master Kirby.

Finally, the course provides a home inspection by trained professionals who will walk you through the do's and don'ts regarding home security and what you can do to secure your home.

Students receive a custom Esteban Grappling (self-defense) uniform, 25 rounds of live ammunition (45 cal. Semi-Auto provided) to fire at the supervised range, a security home inspection, and certificate of completion.

This course allows you to familiarize yourself with all the elements of personal protection. ***The process of information gathering and first-hand training and exposure, will allow you to get past the mystery and anxiety of not-knowing.***
